WELCOME TO OAKWOOD UNIVERSITY

This is a good place, and we are glad that you are with us. We hope that you will help us to make it a better place. In order for a University such as Oakwood to function effectively, policies, rules, codes, standards, procedures, services, and resources must be developed. Academic policies set forth Oakwood University's expectations for student achievement and performance and student codes establish the basic behavioral expectations for students. Throughout America, these codes have become increasingly detailed over the years. However, some colleges and universities have established only basic standards of decency and behavior, allowing the designated judicial body to determine whether a general standard has been violated. In this handbook, we have tried to balance the demand for specificity with the need to maintain flexibility and adaptability. This handbook seeks to explain those policies, codes, and procedures (etc.) that are most likely to impact you. Therefore, you should carefully read it and govern yourself accordingly.

Blessed is the person who does not walk in the counsel of the ungodly, who does not stand in the way of sinners, nor sit in the seat of the scornful. Blessed is the person who delights in the law of the LORD and meditates on it day and night. That person shall be like a tree planted beside the rivers of water, a tree that will bring forth fruit in its season and whose leaves will not wither. Whatever such a person does will prosper (Psalm 1:1-3 paraphrased).

We pray that you will have a "prosperous" year.

GENERAL REGULATIONS ON STUDENT CONDUCT

Oakwood University, a Seventh-day Adventist institution of higher education, is committed to providing quality education in the context of the Adventist faith. Modeled after the school of the prophets in the Bible, integrates faith and learning in a modern-day setting. It offers its students the opportunity to acquire knowledge, behaviors, skills, and positive attitudes. Such development will equip them to provide the highest service in this life, and in the life to come. The aim of Oakwood University is “God First!”

THE OAKWOOD WOMAN/MAN

Oakwood University is committed to achieving a high level of spiritual development and academic excellence. Its teaching and practicing morals, values, and standards will result in a distinctive outcome—the *Oakwood Man* and the *Oakwood Woman*. Therefore, the students of Oakwood University are expected to exhibit high degrees of honor, integrity, and morality.

It is also expected that the Oakwood student will deal with others with compassion and sensitivity. In light of this, the University provides the context for the *Oakwood Man* and the *Oakwood Woman* to develop in their use of judgment, in personal maturation, and in their spiritual journey. Any student desiring counsel and/or additional information concerning the Student Code of Conduct may contact the Chaplain, Residence Hall Deans, or the Office of Vice President for Student Services. To help in the development of Christian morality and educational integrity, the following Student Code of Conduct describes the behavior and practices of Oakwood University students.

Christian Dress

“While recognizing cultural differences, our dress is to be simple, modest, and neat, befitting those whose true beauty does not consist of outward adornment but in the imperishable ornament of a gentle and quiet spirit” (28 *Fundamental Beliefs*, p. 9).

The principles of modesty, simplicity, good taste, neatness, are a witness to our core Christian values. Biblical guidelines for modesty do not depend on current fashion trends. Students who attend Oakwood University are viewed as representatives by all whom they encounter. Because opinions regarding appropriate dress for men and women may vary, Oakwood University reserves the right to determine what is/is not appropriate dress for its students. Therefore, the following attire women shall be: Tops/blouses that conceal cleavage, abdomen, undergarments, and spaghetti straps; pant/skirts/dresses that come below the mid-thigh and over tights or leggings. The following attire for men shall be: shirts that conceal chest, abdomen, and undergarments; pants/that completely cover the waist/undergarment and do not drag on the ground. In addition, both genders should avoid tight fitting clothing-

Modest shorts (to include length and fit) may be worn when attending chapel, assemblies, special convocations, church, AYM, or other religious services, other than residence hall worships. Hats, caps, stocking caps, "do-rags", and any other headgear may not be worn by males when attending the aforementioned services. Muscle shirts and similar attire may not be worn except in designated areas such as the campus weight room.

Acceptable swim attire for men is boxer style swimsuits; acceptable attire for women is modest, one-piece swimwear.

Jewelry:

Oakwood University dress code standards prohibit the wearing of ornamental jewelry, such as necklaces, rings, nose rings, earrings (including string, metal, plastic, or wooden posts) and ankle, arm, or wrist bracelets. The wearing of Band-Aids to conceal the wearing of earrings is also unacceptable. With the exception of wedding bands, which may be worn by married students, no jewelry of any kind or material (silver, gold, metal, cloth, leather, etc.) may be worn at any time.

Tattoos: The display and advertisement of tattoos is discouraged. Tattoos with vulgar language or sexually graphic pictures must be concealed at all times.

Students who continue to wear jewelry and/or dress inappropriately after being admonished by a residence hall director, faculty member, or other staff members may be subjected to the following:

1. A letter of counsel and fine (\$50.00 minimum)
2. Social probation
3. Citizenship Probation

- Will produce their I.D. whenever requested to do so by any official or representative of the University.

Diet: A vegetarian lifestyle is encouraged at Oakwood University. Therefore, flesh or meat products or any unhealthy foodstuff in any form will not be served on campus or at any University-related events or activities. All students residing in University housing are required to participate in one of the designated meal plans.

Devotion and Spiritual Life

Devotion and worship are an integral part of the Christian experience. For this reason, the *Oakwood Man* and the *Oakwood Woman* are encouraged to maintain regular prayer and Bible study habits; to engage in service to others; to give of their time, treasure, and talents to the cause of God among others; to attend regular religious gatherings; and to freely share their faith. For this reason, among others:

All registered students must attend weekly chapels and assemblies. Students living on campus will also attend worship services conducted within their residence hall. In addition, all Oakwood men and women are encouraged to attend mid-week prayer service.

Sabbath: The seventh-day Sabbath will be regarded with reverence as the sign of God's creative and redeeming power. From sunset Friday to sunset Saturday, students should view these sacred hours as a special time for worship, Bible study, meditation, prayer, and true missionary endeavor. Even their dress will give evidence of their commitment to please and honor their Lord, and all gatherings will be appropriate and spiritually uplifting. Attendance at Sabbath school, mid-day service, and AYM will be regular and punctual. Purchasing and or selling food on campus during Sabbath hours is prohibited.

Recreation and Entertainment: "Whatever is true... noble... right... pure... lovely... admirable... excellent... [and] praiseworthy... think about... [and] practice. And the God of peace will be with you." (Philippians 4:8-9, NIV) Students are urged to guard the avenues of their mind. Knowing this, the *Oakwood Man* and *Oakwood Woman* should:

1. Refrain from viewing motion picture films, videos, television, internet and computer programs, or listening to music that promotes violence, nudity, sexually explicit language or behavior, vulgarity or ideas and behavior not in keeping with Christian principles and values.
2. Clear all films to be shown on campus and all University-sponsored programs/activities through the Office of Student Activities.
3. Be careful not to allow their personal recreational or entertainment pursuits to intrude upon the peace of others or be considered disruptive in any way.

STUDENT CODE OF CONDUCT

Regulations of Oakwood University are formulated to meet changing student needs within the framework of University policy. These regulations become effective when the student enrolls. Some regulations may not be agreeable to everyone because they have been formulated to meet the needs of the entire group. This, however, does not lessen the individual's obligation to uphold them and thus, by enrolling at Oakwood University, all students pledge themselves to abide by this code of conduct.

Any action that prevents Oakwood University from fulfilling its purpose, as a Seventh-day Adventist educational institution cannot be condoned. Disruptive conduct or unethical behavior, should it occur, must of necessity be terminated by whatever action may be required, including the possible suspension of students involved in such activity. Oakwood University reserves the right to dismiss at any time,

any student who, in its judgment, behaves in an undesirable manner and whose continuation in school is detrimental to himself/herself or to fellow students.

Students are subject to such disciplinary action as the administration of the University may consider appropriate, including possible suspension, expulsion, or dismissal for violating federal, state or local laws, or University regulations. This principle extends to conduct off-campus that is likely to have adverse effects on the University or on the educational process or which casts the offender as an unfit associate for other students.

Any violation of campus regulations, which is also an infraction of federal, state or local laws will be reported to the appropriate authorities for whatever action is deemed appropriate.

Students, when on campus or attending official University functions off-campus, are required to obey all rules and regulations published in this and other University publications.

All *Oakwood Men* and *Oakwood Women* are depended on to conduct themselves in a manner that is true to the high standards of Oakwood University and the beliefs and traditions of the Seventh-day Adventist Church. Consequences or discipline will be administered for behavior that is not in compliance with the Code of Student Conduct, hazardous to the health, safety, or well-being of members of the University community, incompatible with the biblical standard of morality as interpreted by the Seventh-day Adventist Church, or detrimental to the University's interests.

DISCIPLINARY PROCEDURES

PHILOSOPHY OF REDEMPTIVE DISCIPLINE

Redemptive discipline is the mindset and method by which Oakwood University consistently upholds and enforces its values and standards. It is a special and inclusive emphasis given to the regular student conduct process. It endeavors to more specifically awaken the moral and spiritual sensitivities of the student relative to the infractions committed. It is firm and deliberate, while simultaneously student-centered and compassionate. It intends to convey to the student that the infraction does not end his/her relationship with God and/or the university. By deliberately emphasizing redemptive discipline, the school models God's attitude toward wrongdoing, His forgiveness, restoration, and desire for character building.

Individuals assume certain responsibilities for upholding and maintaining the standards and expectations of the community to which they belong. "Oakwood University is a Seventh-day Adventist University where it is our purpose to provide higher education in a distinctive Christian environment, to apply church standards to behavior, morals, and modesty in dress. Acceptance of admission to Oakwood University is therefore a voluntary commitment to uphold Oakwood University standards." Therefore, Oakwood University expects students to comply with civil laws, God's laws, and with University regulations. Student conduct that violates these laws and regulations will result in university disciplinary action.

The student conduct process is based on the assumption that disciplinary procedures, when required, should be an educational and redemptive process. Disciplinary sanctions are imposed to help students develop individual responsibility and encourage self-discipline, to remind students of the spiritual implications of their behavior, to foster a respect for the rights of others, and to protect the rights, freedoms and safety of members of the campus community.

The purposes of the student conduct process are to provide a redemptive, fair educational process for accountability of student conduct; to promote the development of individual integrity; to protect the rights of members of the university community; and to uphold the nonacademic rules and regulations of the university.

Disciplinary proceedings conducted pursuant to the Student Code of Conduct shall be informal, fair, and expeditious under the circumstances. It should be noted that they are not formal legal proceedings and that general rules of civil or criminal proceedings do not apply. In these proceedings, formal rules of evidence or procedure shall not be applicable. By providing this redemptive disciplinary process, Oakwood University is not offering or agreeing to provide students charged with misconduct "due process" as that term is used in legal proceedings. **The University reserves the right (through the**

Office of the Vice President for Student Services) to modify and/or deviate from these procedures when circumstances warrant. Deviations from proscribed procedures shall not invalidate a proceeding or decision, unless that decision was materially influenced by the deviation. Further, the University will proceed with its review of infractions regardless of external or criminal proceedings. Attorney should review.

Incident Report

An incident report is a written narrative that details a particular complaint, concern, personal account of an incident, or witness report. An incident report should be submitted when a member of the University community has suffered a wrong or an infraction of University rules or principles is committed. The report of that incident should be prepared by the individuals involved and by those who witnessed it. It is to be submitted within one workday of the incident to the Residence Hall Office (campus residents) or to Public Safety.

When warranted by the severity of an infraction or the frequency and nature of infractions, the matter shall be referred to the Office of Student Services for a hearing before the Student Conduct Committee. Serious and/or repeated violations of the Student Code of Conduct that may subject offenders to suspension, expulsion, or dismissal are heard by this Committee. The Office of Student Services reserves the right to initiate an inquiry into any matter pertaining to student life and campus security and to refer the matter to the Student Conduct Committee when appropriate. The Committee will thoroughly review the incident to determine the degree of culpability and the continuing needs of the student, and then determine the appropriate sanction. The decision of the Committee will be communicated to the Assistant Vice President for Student Services who is responsible for informing the university administration and the student.

Prior to the convening of the Student Conduct Committee to hear a particular case, and depending upon the nature of the incident, the university reserves the right to suspend a student until the Student Conduct Committee has completed its deliberations and made a decision. While the decision is pending, the offending student(s) will be barred from all academic, social, and intramural events and may not participate in public programs or performances on or off campus. They will also be ineligible for campus leaves.

Student Conduct Committee

The Student Conduct Committee is the adjudicating body drawn from faculty, staff, and students to interview, evaluate, and decide the degree of culpability for a reported incident. The terms of service are staggered for purposes of continuity, and it functions under the supervision of the Assistant Vice President for Student Services (Chair), who is a non-voting member.

Hearings should be scheduled within two workdays of receipt of the incident report by the Office of Student Services and conducted within a calendar week. The student(s) charged with an offense must appear in person to discuss their behavior. They may come with witnesses or any other members of the University community who can help clarify the truth of the matter and/or help the student(s) to articulate their need(s). The Student Conduct Committee will hear and/or act on a case even if the student fails or refuses to appear. The Committee has the right to control the proceedings and the presentation of the case.

The Committee will evaluate the information and make recommendation to the Vice President for Student Services through the Chair (or his/her designee). The Assistant Vice President for Student Services will communicate the decision of the Vice President for Student Services to the student(s) and all concerned parties.

DISCIPLINARY SANCTIONS

OVERVIEW

Sanctions for violating University regulations could include: written reprimands, probation, fines, suspension, expulsion, and dismissal. The following sanctions are adopted by Oakwood University with the intent to provide flexibility to the disciplinary process (so that those responsible for student conduct can consider the nature of the violation, the circumstances under which it was committed, and the culpability of the offender, and then choose the appropriate penalty from a range of possibilities). Oakwood University reserves the right to amend, change, and/or determine what sanctions are to be imposed.

Sanctions may include the following:

1. **Disciplinary Warning:** An official written notification that a student's behavior is in violation of university regulations or standards, and which will clarify expected behavior in the future (for example: a letter of counsel). Further misconduct will be treated with more serious sanctions.
2. **Disciplinary Probation (Citizenship Probation):** Probation for a specified period, implying that the student's standing within the University is in jeopardy and that further negligent or willful violations will normally result in suspension or expulsion.
3. **Suspension from Residence Halls:** Prohibits the student from residing in any University-operated housing on either a temporary or permanent basis. The student may reapply for housing after the stated period of suspension. Specific restrictions on access to residential housing during the period of the suspension may also be invoked. Suspension includes forfeiture of any fee rebate for the remainder of the semester.
4. **Suspension from the University:** Separates the student from the University for a specified period of time. Such separation prohibits attendance at any classes, social events or other functions, or visiting University grounds or buildings unless by written permission. Reapplication is not required following a one (1) semester suspension. Suspension will be noted on the student's permanent record (transcript).
5. **Community Service:** When deemed appropriate, the University may also require the performance of a specified number of community service hours. This sanction will be fulfilled whether on or off campus.
6. **Educational Sanctions:** When deemed appropriate, the University may also require the performance of a variety of educational sanctions. These may include a formal apology (in writing and/or in person) or a public presentation or research paper on a designated topic.
7. **Restitution:** When deemed appropriate, the University may require restitution for damages done or other payment for expenses incurred as a result of the student's actions. Restitution may be required to the University, a specific department, or a specific individual, as designated by the University.
8. **Fines:** When deemed appropriate, the University may levy fines payable to the University for selected policy violations.

9. **Expulsion:** Separates the student from the University indefinitely. An individual wishing to resume studies after having been expelled must reapply for admission to the university. Expulsion will be noted on the student's permanent record (transcript).
10. **Dismissal:** An individual who has been dismissed is ineligible for readmission. Dismissal will be noted on the student's permanent record (transcript).
11. **Repeat Violations:** In the case of repeated violations or violation in deliberate disregard of a specific warning, a student will be subject to more serious sanctions than would otherwise be the case. A prior disciplinary record is never relevant in determining the facts of an incident, but once the facts have been established, it may be relevant in determining the appropriate sanction.
12. **Sanctions Related to Group Behavior:** The university may recommend that a university-based group be required to make restitution of damages or pay additional fines. In addition, the university may recommend the imposition of one of the following sanctions:
 - a. A written disciplinary warning with a copy maintained in the Office of Student Services. The warning should specify corrective measures that may help the group avoid similar complaints in the future.
 - b. Disciplinary probation for a period to be established by the university, implying that the group's standing within the university is in jeopardy and that further negligent or willful violations will normally result in withdrawal of university recognition. Disciplinary probation may include restrictions on the group's function during the probationary period. The group should also be informed of corrective measures that must be undertaken during the probationary period and maintained after its conclusion.
 - c. Withdrawal of university recognition and suspension of privileges, including the privilege of access to the resources of the university. A group desiring to reestablish a relationship with the university must reapply through the Office of Student Activities for recognition by the university.

Residence Hall Level Discipline

The following sanctions may be adjudicated by the respective residence hall deans:

1. **Warning:** Notice, in writing, that the student is violating or has violated institutional rules and that continuation or repetition of similar misconduct, within a prescribed period of time, may be cause for further disciplinary action and more severe sanctions.
2. **Restitution or Reimbursement:** Restitution or Reimbursement for damage to or misappropriation of property or for personal injury costs.
3. **Fine:** Monetary penalty appropriate to the severity of the offense.
4. **Mandatory Community Work:** Assigned campus and/or community service appropriate to the offense.
5. **Health and Counseling Referrals:** Mandatory alcohol and drug awareness education.
6. **Restriction or Revocation of Privileges:** Restriction or revocation of certain student privileges for a specified period of time.
7. **Residence Hall Social Probation:** Warning that further violations of residence hall guidelines will result in further disciplinary action.

8. Disciplinary Probation (Citizenship Probation): Warning that further violation of specified regulations within the probationary period are likely to result in more severe disciplinary sanctions being adjudicated by a higher level of administration.

The stipulations for probation may include any but not limited to the following:

1. Suspension of all leaves: weekend, late, extended and standing late leave, except in an emergency and/or with the approval of the residence hall director.
2. Be present in the residence hall every night at curfew.
3. Attend all mandatory worship/chapel services.
4. Ineligible to participate in varsity sports activities or any public performance.
5. Loss of all student leadership positions, including USM and religious organizations.
6. Pastoral and/or personal counseling.
7. Ineligible to live off campus.

Students' Right of Appeal

Students have the right to appeal. However, there are certain conditions that must be met:

1. Grounds for Appeal: An appeal will be considered valid only if it meets one of the following criteria:
 - a. Information is available which was not available at the time of the decision, but which would have affected the decision.
 - b. The case was initiated or conducted according to improper procedure and the decision was materially influenced as a result of the improper procedure.
 - c. The decision embodies a sanction that is inconsistent with the nature of the offense. ("Inconsistent" in this sense should be interpreted to mean the degree of severity of the sanction is not reasonable in light of the offense.)
 - d. The facts were not sufficient to justify the findings.
2. Limitations on Appeals of Sanctions: Appeals of sanctions and related specific restrictions/conditions, imposed at any given level of authority, are as follows:
 - a. Probation, social restriction, monetary fines, community service work, and residence hall suspensions may be appealed one administrative level in the system removed from the authority imposing the sanction. (i.e., if the sanction begins with an Assistant Dean, it can be appealed to the Dean, and so on to the Assistant Vice President for Student Services, and the Vice President for Student Services.)
 - b. Suspensions, Expulsions, and/or Dismissals may be appealed to the University President or his designee.
3. Procedure: After notification (written or oral) of a decision has been made, the student has 72 hours from the day and time upon receipt of the decision to submit a typed, written appeal. The appeal should be addressed to the appropriate university official/authority with a copy to the university official/authority that rendered the decision that is being appealed. The appeal should clearly delineate:

- a. The specific charges.
- b. The action or decision reached by the lower authority.
- c. The ground(s) and rationale upon which the appeal is based (See Grounds for Appeal).

All relevant materials pertaining to the case will be forwarded to the appropriate office within 48 hours after the appeal is filed. It is the responsibility of the authority from which the appeal is being made to provide the necessary information to the appellate authority.

- 4. Responsibility of the Provost or Designee: The provost will normally render a decision on the appeal within 72 hours* after it is received. The decision may be to:
 - a. Reject the Appeal - a decision to reject an appeal should be based on and is indicated by a finding of no procedural and/or substantive discrepancies in the action(s) and/or decision(s) of the lower authority. This action implies agreement with the lower hearing authority.
 - b. **Grant the Appeal - a decision to grant an appeal should be based on and is indicated by a finding of procedural or substantive discrepancies in the action(s) and/or decision(s) of the lower authority. This action implies disagreement with the lower hearing authority. If the appeal is granted, the appellate authority may:
 - 1) Alter or modify the sanctions imposed by the lower authority. This action implies agreement with the findings and disagreement with the sanctions. Any changes to the sanctions should be within the specified parameters for the type of infraction involved; or
 - 2) **Reverse the findings: This action implies disagreement with the findings and, consequently, the sanctions imposed by the lower authority. A review of the initial hearing is indicated and, depending on the circumstances, may be conducted by the appellate authority or ordered reheard by the lower authority.
 - c. Send it back to the original authority to conduct further proceedings on the matter or ask for a completely new hearing.

If it is determined that grounds for a valid appeal exist, the appellate authority will notify, in writing, all concerned parties of the action being taken. If a new hearing is ordered, it should be scheduled as soon as possible. In these instances, the case will be presented in its entirety.

Students, who have been suspended/expelled/dismissed by the initial authority and choose to appeal the decision, may be required to leave campus or be subject to restrictions during the course of the appeal. In these cases, every effort will be made to expedite the appeal process. Further, the university reserves the right to deny re-admission to any student who has been sanctioned.

*Note: Exceptions to the specified time limitations should be allowed when in conflict with weekends, holidays, and other times when administrative and academic offices are closed. In the absence of administrative officials, the 72 hours rule may be waived.

** The appellate authority that grants or reverses the findings becomes the official signatory and will sign any official documents, papers, etc. needed by the student who filed the appeal.

Rules of Departure (Disciplinary)

Students who receive final notification of suspension, expulsion, or dismissal must turn in their ID cards and leave campus immediately (within 24 hours). Any hardship rendered by this time constraint for resident students should be discussed with their Dean who will assist with any arrangements that must be made. Students who are suspended or expelled are restricted from all campus properties, functions, and events. Failure to abide by these rules will subject offender(s) to criminal trespass charges and subsequent arrest which will significantly increase their time of separation.

A student involved in activities requiring disciplinary separation may experience both financial and academic loss. According to the University Bulletin, “a student suspended for disciplinary reasons may not be allowed to make up class work assigned and completed during his/her absence. Missed work may incur a grade of “F” and will be computed in the student’s final grade.” Further, students should consider the financial implications of their behavior since disciplinary actions have financial consequences. The deadlines set for tuition refunds will be the same that will be used in determining what refund, if any, a sanctioned student will receive when being separated from the university.

STUDENT LIFE

Attendance at Chapels/General Assemblies

Chapels/General Assemblies are scheduled for Thursday mornings and begin at 9:50 a.m. and end at 11:00 a.m. Students must have their ID cards scanned in between 9:40 am and 10:10 am and scanned out at the end of chapel/assembly to receive credit for attendance. All students taking more than six hours are required to attend weekly chapel/assemblies.

Assembly – Oakwood University is dedicated to providing a well-rounded educational and cultural experience. Throughout the academic year at the University assembly, distinguished guest speakers and artists address the student body with thought provoking lectures, dynamic performances, and inspirational challenges. The University assembly alternates with the University chapel service. All undergraduate students with the exception of students enrolled in the LEAP Program are required to attend Assembly and Chapel programs.

Chapel – The mission and purpose of chapel is: (1) to reveal a clearer picture of God through the teaching of His Word and by presenting biblical truths in ways that reveal God’s love for us; (2) to create a family worship experience that will bring together faculty, staff, and students for the purpose of promoting spiritual unity, prayer, praise, and support for our campus.

One unexcused absence is allowed each semester. All unexcused absences beyond the first absence will result in a \$25.00 fine per absence. Continued non-compliance could result in further discipline including suspension or denial of readmission. Non-compliance to the chapel/assembly requirement will become a part of the student’s citizenship history and will effect recommendations and citizenship history requests from prospective employers, other educational institutions, and licensing agencies (State Bar, Medical Exams, etc.) made to the Office of Student Services.

Chapel/General Assembly Exemptions:

Exemptions to assembly/chapel requirements may be granted for students who show proof for one or more of the following criteria:

1. Students with dependent children in their immediate care (must present birth certificate).
2. Students with a baccalaureate or advanced degree.
3. Seniors in the final semester of a baccalaureate degree or students with at least 110 earned cumulative semester hours. *Seniors who have fewer than 110 cum hours must come to the office of Student Services and present proof of graduation eligibility (i.e. graduation clearance form, registration form exceeding 16 semester hours, CLEP exam results, etc.).
4. Community students taking six or fewer hours.
5. Students who are employed or fulfilling a practicum/internship during chapel hours must present typed-written documentation on letterhead from their place of employment and/or academic departments signed by their immediate supervisors or professors. This documentation must be turned into the Office of Student Services no later than one week after the starting date of employment or practicum/internship.

Students who miss an occasional chapel (i.e., class trips, sickness, death in the family, etc.) must submit their excuses in writing to the Office of Student Services before the next chapel service after the absence has occurred.

Students who fail to submit proof of a valid exemption before a fine is posted must pay the fine. However, noncompliance discipline will be waived. To avoid the cash fine, it is imperative that requests for exemption from chapel/assembly be submitted the first week of classes. Failure to meet the exemption criteria above will automatically result in an unexcused absence and a fine being applied to the students Chapel/Assembly attendance file.

Fines for Chapel/Assembly noncompliance will be posted at the end of each semester. All students are encouraged to periodically check their Chapel/Assembly records in the office of Student Services. It is the responsibility of the student to submit all excuses in the allotted time.

All students will be held accountable for information disseminated at chapels/assemblies whether they are required to attend or exempt. It is the sole responsibility of the student to get all information that is relevant to his/her matriculation at Oakwood University.

4. All Oakwood University students utilizing dining hall/market services are required to keep their dining area clean by proper disposal of waste and return of plates and utensils to their proper receptacles.

Citizenship Review

As a private institution, Oakwood University reserves the right to deny admission and/or continuance to individuals who have clearly demonstrated that their continued enrollment would not be in their best interest or that of the University.

At the end of each semester, the Assistant Vice President reserves the right to review the Citizenship records of all students who have demonstrated a pattern of irresponsibility in meeting University guidelines and who have manifested a spirit of unwillingness to comply with such guidelines. The purpose of the review is to determine the eligibility of those students for readmission or continuance. The review process includes the residence hall dean's review of the citizenship records of all residence hall students. The review will identify students whose records indicate non-compliance. The Dean will then meet with the student to discuss their non-compliance and advise them that their matriculation at Oakwood University is in jeopardy.

Students with Disabilities

Oakwood University strives to provide all students with reasonable access to its facilities and programs in accordance with applicable federal laws, including the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Students with special academic needs as diagnosed by qualified specialists are serviced within the Center for Student Success located on the second floor of Cunningham Hall. The office may be contacted at (256) 726-7149.

Student Health Rights and Responsibilities

- ✓ Students have a right to considerate care that safeguards their personal dignity and respects their values and preferences.
- ✓ Students are provided reasonable privacy, including protection from access to their confidential information by faculty, staff, and non-health personnel unless necessary for the provision of medical services, or for insurance billing purposes. Other instances for access to confidential information will be based on issues related to the imminent danger of the student or others in which confidentiality is no longer a factor. Additionally, court subpoenaed documents are outside the jurisdiction of confidentiality. All other medical releases of information require the written consent of the student.
- ✓ Students have the right to medical and mental health services; however, The Department of Health and Counseling services reserves the right to deny services to any student whose conduct is threatening or poses a danger to others. Additionally, Oakwood University is not liable for students who pose a risk to their own physical and mental well-being by non-compliance with treatment recommendations.
- ✓ Furthermore, students who are diagnosed with communicable diseases must comply with recommendations made by the Department of Health and Counseling Services or its designee for the safety and well-being of the Oakwood community. Noncompliance with recommendations geared to minimize the spread of communicable diseases could result in dismissal of the student from Oakwood University. Additionally, if the communicable disease is not able to be affectively restrained due to the nature of the disease or due to residential living environments, a student may be asked to withdraw from Oakwood University until the

student is no longer a risk to others as deemed by Health and Counseling Services personnel and the Office of Student Services.

- ✓ Students are responsible to provide to the Health and Counseling Services office complete and full information on their health status and to cooperate in treatment planning and follow-up.
- ✓ Students have the responsibility to assume financial obligations for services rendered.
- ✓ Students have the right to access care and treatment.
- ✓ Students have the right to know and identify health care professionals providing care.
- ✓ Students have the right to refuse care and take personal responsibility for treatment.

Medical Insurance

All students are required to have sickness and accident insurance coverage, personal or acquired through the University. The cost for insurance, acquired and/or assigned through the University, is divided into two equal premiums charged fall and spring semesters for coverage from August to August. Students must complete an insurance waiver form in order to avoid incurring costs for the University insurance plan. Students who fail to complete the waiver form each semester and who fail to show proof of private insurance while enrolled at Oakwood will be automatically charged for school accident and illness health insurance. Deadlines for completing the waiver forms are listed on the school calendar each semester. Once the deadline is past, insurance billing charges will not be reserved. All International student will be assigned and charged for the University insurance plan, regardless of personal coverage.

Medical Housing Requests

Each Residence Hall office is responsible for making its own room assignments. When students are ill or become disabled in any way, the Department of Health and Counseling Services will be asked to assess the nature and severity of the illness or disability and recommend (temporary or permanent) special housing accommodations. Health and Counseling Services may choose to recommend single rooms or special room assignments only upon adequate documentation of absolute medical necessity. Students requiring special residential accommodations due to a medical condition are required to make a formal request in writing outlining the medical condition and the type of accommodations desired.

Documentation from the student's primary care physician, lab tests, and/or any other diagnostic evaluations and results are required for any requests to be considered.

Please include a completed Release of Information form, to include with the other documents.

Once these documents have been reviewed by the Director/Provider of Health and Counseling Services in consultation with the collaborating physician, a recommendation will be made to the Vice President of Student Services or designee.

Please note: This is only a recommendation. Again, Oakwood University strives to provide all students with reasonable access to its facilities and programs in accordance with applicable federal laws, including the Rehabilitation Act of 1973.

Materials may not be posted on windows or glass doors.

The request should be made in writing to the appropriate administrator who should be allowed a reasonable amount of time to respond. This right does not extend to any information that is proprietary, confidential, and/or privileged to the University. The University reserves the right to refuse to provide copies of records to/for students with outstanding financial obligations to the University or if there is an unresolved disciplinary action pending against the student.

Tornado/Disaster Warnings

In the event of a severe weather warning, go immediately to the best available refuge area. Remain in your designated area until the "all clear" is sent via the Emergency Notification System by the Oakwood University Police Department (OUPD). Stay away from windows or glass structures. If it is not possible for you to get to a designated area, go to the lowest area of the building. If you are outside, find a ditch or ravine; lie flat with your hand shielding your head.

NOTE: There is a difference between a "TORNADO WATCH" and a "TORNADO WARNING."

TORNADO WATCH: The conditions for a tornado to develop are favorable.

TORNADO WARNING: A tornado has been spotted or is imminent. **Proceed immediately to the nearest designated refuge area.**

IMPORTANT: When the National Weather Service (NWS) issues a TORNADO WARNING, the county-wide siren system will be activated. This is the signal that a TORNADO WARNING has been issued by NWS. The sirens are meant to alert individuals who are outside at the time of issuance of the TORNADO WARNING. The siren that is located on Cunningham Hall provides the alert for our

campus. It is generally heard inside most buildings with the general exception of basement areas of buildings. The following is a listing of the best available refuge areas on campus:

To begin the process, the student will need to go the Office of the Registrar.

RESIDENTIAL LIFE

Oakwood University is a residential campus. Our mission is to provide holistic quality Christian education in a safe and nurturing environment of campus living. The university has made a concerted effort to make residential living comfortable, clean, and convenient, in a Christ-centered climate.

Residential Philosophy and Rights of Students

University housing provides a unique living experience and environment. Students come to Oakwood from all segments of society, from different cultures and countries, and with varying value systems and life experiences. Thus is provided an extraordinary opportunity to broaden one's understanding and appreciation of other people as well as develop a tolerance of lifestyles that may be different from one's own. Furthermore, roommates, suitemates, and hall residents have an excellent opportunity to develop lifelong friendships.

To take full advantage of these opportunities, mutual respect and consideration, coupled with an awareness of, and sensitivity to the needs of others, must be the standard of community living. Every resident should respect the rights of their roommates, suitemates, and other residents. These rights include:

- ✓ The right to read and study free from unnecessary disturbance in one's room. Unreasonable noise and other distractions that inhibit the exercise of this right.

- ✓ The right to personal privacy
- ✓ The right to host guests while respecting the rights of one's room- or suitemate
- ✓ The right to redress grievances.
- ✓ The right to be free from intimidation and physical or emotional harm.

Students under 22 years of age are required to live on campus. STUDENT ORGANIZATIONS

General Policies

Students seeking approval to function as a campus organization must submit to the Office of Student Activities a fully developed constitution or a statement regarding the scope and purpose of the organization, its membership requirements, and general policies.

Permission to function will be granted on an annual basis. All student organizations must register annually with the Office of Student Activities. This registration must be made during the fall or spring semester of each year. Registration entitles the organization to the use of campus facilities and inclusion in the co-curricular program of the University.

All organizations shall have a faculty or staff sponsor, who has been approved by the Office of Student Services. The sponsor shall be responsible to the Vice President for Student Services for the activities of the organization.

Organizations are expected to render programs and services, which contribute to the social, recreational, spiritual, and cultural life of the University community. Any organization which promotes clandestine relationships, immoral practices, or encourages violation of the University regulations will be reviewed and if found out of compliance will forfeit the right to function on the University Campus. Further, the officers of such organizations in violation of Oakwood University and Seventh-day Adventist principles will be open to immediate disciplinary action by the University. The University reserves the right to withdraw its approval of any campus organization when the well-being of the University requires such action.

All organizations, with the help of their sponsors, are asked to give an end-of-the year report on their organization's activities. This should include supporting documentation. Failure to do this could cause some restrictions for the coming year. (This report should be submitted to the Director of Student Activities no later than April 15th of each calendar year).

Greek Social Clubs

Due to the exclusivity of fraternities/sororities, their initiation activities, and their internal codes of performance and behavior that may be in conflict with Oakwood University philosophy and values, Greek *social* clubs, fraternities, or sororities are not permitted to function at Oakwood University. Neither are they permitted to wear their paraphernalia on campus or recruit students from the campus community. This includes all fraternity/sorority-like groups, activities, symbols, or sponsored efforts. * Students refusing to comply with this policy subject themselves to sanctions that include, but are not limited to, suspension and/or expulsion. If students are members of off-campus fraternities/sororities, the University cannot be held liable for incidents or accidents that may occur related to such activities in which students may participate.

Academically related clubs, societies, or organizations are not included within the scope of this policy.

* See Student Code of Conduct.

Academic Qualifications for Officers of Clubs and Organizations

Students holding office in any organization must have a cumulative GPA of 2.5 or better. Members on academic probation may be limited in the degree to which they may participate in the activities of their organizations.

Organizational Leaves

A campus leave that is planned by any registered organization, including musical groups, for the purpose of fulfilling an engagement off campus, is considered an organizational leave.

Allow not less than one week for processing activity engagements that are scheduled for a weekend involving travel and/or accommodations.

THE UNITED STUDENT MOVEMENT

The United Student Movement is the student government of Oakwood University. As stated in its constitution, the USM was established "in order to enhance our spiritual, academic, and social experience" at Oakwood University. Every student enrolled in Oakwood University is a member of the United Student Movement.

The USM, through its offices, provides many services. These include, but are in no way limited to social, academic, athletic, and religious activities. Some of the highlights of these activities include the spring banquet, DEEP Sabbath, intramural competitions, annual block party and student week of prayer. Additionally, the USM produces the official Oakwood University newspaper, **The Spreading Oak**, and the official Oakwood University yearbook, **The Acorn**.

Regarding these student publications, Oakwood University accepts the concept that all campus publications operate primarily for the purpose of promoting academic excellence, respect for the rights of others, leadership training, cultural development, and self-expression. Thus, the University offers students the opportunity to become involved in the publication of **The Spreading Oak** and **The Acorn**. These two publications come under the direct supervision of their appointed faculty/staff advisors, the Director of Student Activities and the Vice President for Student Services. Each publication has an elected or appointed student editor who serves for a term of one academic year. Support staff is provided through the use of student volunteers. The role of the faculty/staff advisor is to give advice and counsel to the student editor regarding appropriate journalistic procedure, and to review and approve all final copy before publication. Because newsworthy events about campus life are matters of interest to the local community, and Oakwood University constituents, student publications may from time to time be reviewed by the official public relations office of the University, which is the Office of Integrated Marketing and Public Relations.

As long as a person is a student of Oakwood University, his/her name is inextricably associated with the University. Since the University name is not to be used without permission, students are to make satisfactory arrangements with the Office of Integrated Marketing and Public Relations before releasing for publication or broadcast any statement regarding themselves, the University, or any student activity.

Questions regarding the content of student periodicals (**The Spreading Oak** and **The Acorn**) should be directed to the student editor and specific faculty/staff advisor and the Director of Student Activities. In such matters, the Vice President for Student Services in consultation with the faculty/staff advisor, the Director of Student Activities, and the Office of Integrated Marketing and Public Relations will review the item in question to determine its suitability for publication. The University reserves the right to deny publication if it determines that the item clearly and distinctly damages the image, mission, or philosophy of the University as an Adventist academic community. Submissions for student publications should be directed to the appropriate editor with specified deadline dates.

The USM also serves as a liaison between the University administration and the student body, addressing problems and needs of the students at large. The officers are organized into two main groups – the executive officers and the senate. The executive officers are elected at the end of the previous school year into the positions specified in the constitution. The senate is elected at the beginning of each school year and consists of student representatives from a cross-section of the student population.

OFFICE OF SPIRITUAL LIFE AND MISSIONS (OSLM)

The Office of Spiritual Life and Missions is committed to the spiritual nurture and character development of each student with the goal of ‘developing servant leaders.’ Although the scope of spirituality embraces the entire campus family, our primary goal is to nurture faith in the lives of our most precious and promising resource – our students.  2. That he/she should plan to follow the recommendations of the Health and Counseling Center staff.
 3. That there will be consequences for failure to comply.
- Complete the Counseling center Referral Form along with the Release of Information Form. Other information pertaining to the circumstances of the referral (e.g., incident reports) should also be sent to Health and Counseling Center.
- Check with the student by the end of the next business day to determine his or her compliance.
- Check with the student regarding any missed appointments and laboratory analysis results.
- Report failure(s) of compliance to the Assistant Vice President for Student Services.
- Make sure incident is kept confidential from those who have no need or right to know.

Student's responsibilities:

- Submit to Breathalyzer or urinalysis or other drug test if requested by the Residence Hall Dean, the Assistant Vice President for Student Services, or Health and Counseling Center staff.
- Write a statement of the incident (e.g., when, how much was used, where) at the time of the initial meeting with the Residence hall dean.
- Sign the Release of Information Form for the Health and Counseling Center (and any other treatment center involved).
- Inform parents within 24 hours.
- Make an appointment with the Health and Counseling Center by the end of the next business day.
- Meet with Health and Counseling Center and/or other designated treatment center personnel in order to complete an assessment.
- Follow-up as recommended (may include scheduling changes to accommodate appointment, charges for substance abuse treatment and/or drug test, or provision of own transportation to 12-step meetings.)

Health and Counseling Center staff responsibilities:

- Meet with the student to conduct a preliminary assessment and/or refer to a substance abuse program for an assessment as deemed necessary.
- Coordinate treatment services if another center is involved in treatment.
- Inform Residence hall dean of the following:
 1. Any missed appointments
 2. Assessment outcome and recommendations (written)
 3. Continuing progress or completion of services
- Provide services (e.g., individual counseling, substance abuse education) and/or refer to a substance abuse treatment center or other service as appropriate.

Part B

Treatment recommendations will depend upon the assessment outcome, and are determined on a case-by-case basis. The university may choose to discipline the student with sanctions up to and including dismissal. Following are the assessment categories and their usual treatment recommendations:

- A. **Occasional social or experimental use:** The student will attend weekly counseling and education sessions for 7 weeks, and attend three meetings of Alcoholics Anonymous (AA), Narcotics Anonymous (NA), or other substance abuse prevention support group approved by the University. Students who have a more significant problem, or have significant problems surface during assessment, may benefit from counseling more than information; thus counseling may involve a longer period of time.
- B. **Substance abuse, or problematic use, which has not yet developed to dependency:** The student will be referred to a community based intensive outpatient educational/treatment program at his or her expense. Oakwood University Counseling Center will follow-up on that program's discharge recommendations. Such follow-up may include individual counseling with the Oakwood University Counseling Center staff as well as regular substance abuse prevention support group attendance.
- C. **Chemical dependency:** The student will be asked to withdraw from Oakwood University for at least one semester and seek appropriate inpatient treatment to establish a solid recovery program. Upon readmission to Oakwood University, the student and his/her parents (as appropriate) must sign a contract of commitment to his/her ongoing recovery program, which may involve counseling, AA/NA, and/or attendance at some other substance abuse prevention support group approved by the University. The student should be prepared to participate in spot-checking by laboratory analysis when requested to do so by the Residence hall director, the Assistant Vice President for Student Services, or other personnel involved in treatment.

If the student fails to comply with the drug and alcohol assessment, any part of the treatment recommendations, or returns to use, he or she may be required to withdraw from school immediately.

Students will be encouraged to make recovery their highest priority and return to campus **only** after at least one semester of intensive recovery work. Before re-applying to Oakwood University, they will need to provide a written program review from the treatment facility and a statement of compliance with the recovery program plan. Students who have had chemical dependency treatment can expect to be in contact with the Counseling Center and comply with the requirements for abstinence throughout their time at Oakwood University.

Part C

If a student approaches a faculty/staff member, residence hall dean or a resident assistant, requesting assistance with an alcohol or other drug problem, those individuals' responsibilities are as follows:

- Ask the student to contact the Counseling Center staff before the end of the next business day.
- Inform the student that he/she will need to sign a Release of Information Form with the Counseling Center in order to assure the faculty/staff member/residence hall dean/R.A that he/she is receiving help and to allow the faculty/staff member/residence hall dean/R.A. to be a part of the helping process.

Intellectual Property Policy

Oakwood University's (the "University") primary mission lies in the creation and dissemination of knowledge in the works of the intellect in whatever medium they are embodied or expressed. This policy recognizes and acknowledges that intellectual property rights may arise in such works from time to time as a result of efforts by members of the Oakwood University community. This policy addresses issues of ownership and management of patents, copyrights and trademarks, and applies to all faculty, employees and students of the University.

PATENT POLICY

A. Purpose

In view of the far-reaching research at the University, it is inevitable that new discoveries and inventions will be made. The members of the Oakwood University Board of Trustees (hereinafter referred to as the Board) recognize the importance of obtaining the greatest public benefit and usefulness from the products of the University's scientific research and inventiveness, and that the protection and control provided under patent laws or other legal means for the protection of property rights may be necessary to obtain this goal. It is further recognized that employees of the University need assistance in determining and evaluating patentability and in prosecuting patent applications for or otherwise protecting inventions made by them. Furthermore, many such inventions involve equities beyond those of the inventor since the use of University facilities, the assignment of duties as a condition of employment, and the use of research funds with contractual obligations regarding patent rights give rise to questions concerning the rights and equities of all concerned. The purpose of this patent policy is to establish a mechanism to serve the public benefit and interest, to determine and apprise all concerned parties of relative rights and equities, to facilitate patent applications, the licensing of inventions, the equitable distribution of any royalties or other financial returns, to provide necessary uniformity in patent matters, and to provide for adequate reporting of patent activities.

B. Policy and Procedure

1. It shall be the policy of the Board to encourage the concept that patentable inventions produced at the University shall be used for the greatest possible public benefit and to provide every reasonable incentive to the faculty, students and staff for the disclosure, evaluation and dissemination of such inventions. When University support makes the research effort possible or when it provides support for the development of a patentable invention, it is reasonable for the University to participate in the fruits of such development, including reimbursement for its costs. To that end, the University encourages the procurement of patents for such inventions and the licensing or other commercialization thereof in the interest of the public, the inventor, and the University.
2. This patent policy of the University, as amended from time to time, shall be deemed to be a condition of employment and contractual obligation, both while employed and thereafter, of every employee of each campus, including student employees, and a condition of enrollment and attendance and contractual obligation, both while in attendance and thereafter, by every student at each campus.

3. An invention or discovery (1) which is the result of research carried on by or under the direction of an employee of a campus of the University and/or having the costs thereof paid from funds provided by, under the control of or administered by a campus of the University, or (2) which is made by an employee of a campus of the University and which relates to the employee's field of work, or (3) which has been developed in whole or in part by the utilization of resources or facility belong to a campus of the University, shall be the property of the applicable campus of the University unless there is a written agreement between the university and the employee specifying alternate distribution of ownership. The applicability of the above-stated criteria to any invention or discovery will be determined at the sole discretion of the President of the University or his/her designee.
4. As a condition of their employment by or enrollment at a campus of the University, each faculty member, employee and student agrees that he/she shall be contractually bound by this patent policy and shall report to the officer or non-profit organization so designated by the President of the University to manage and commercialize such inventions and discoveries, any invention or discovery which such faculty member, employee or student has conceived, discovered, developed and/or reduced to practice by them or under their direction at any time following their initial appointment by, employment by, or enrollment with the University. All inventions and discoveries that meet the criteria of B.3. shall be automatically assigned to the University for the benefit of the University immediately upon creation or discovery or reduction to practice of the invention or discovery. The President of the University is authorized to further assign any invention or discovery it is deemed to own pursuant to this policy to a designated nonprofit organization established for the benefit of the respective campus of the University, which said assignment shall be conditioned on full compliance with this policy, regulations promulgated hereunder by the Board or by the President of the University, and appropriate state and federal law.
5. If the invention or discovery is one which is determined to be owned by the University, the President of the University or his/her designee shall further evaluate the invention or discovery and determine if and how best to develop, commercialize and protect the invention as he/she deems appropriate, including, but not limited to, applying for patent protection, or requesting further development of the invention or discovery. In making this determination, the benefits that might accrue to the University and the inventor(s) shall be considered. The designee shall act promptly in carrying out these duties so that the rights of the inventor(s) and the University may be protected.
6. If it is determined that the invention or discovery is one which is owned by the University pursuant to this policy but is one in which the University has no interest in retaining ownership, the University (or the non-profit organization to which an invention may have been assigned in accordance with the terms of this policy) may, but is under no obligation to, release its ownership rights to the inventor(s) on terms and conditions determined by the President or his/her designee, subject to any third party rights.
7. In consideration of the automatic assignment of ownership set forth in this policy, the President or its designee is authorized to pay to the inventors, their heirs or assigns, a percentage of the royalties, fees, or other financial returns received by the University (or the non-profit organization to which an invention may have been assigned in accordance with the terms of this policy) from such invention after a deduction of fifteen percent (15%) thereof for overhead costs, plus a deduction for costs of patenting and protection of intellectual property rights and any unusual expenses paid by the University or its non-profit designee or the inventor (which have been approved by the University or its non-

profit designee). The President of the University of his/her designee shall be responsible for the development of a policy governing the percentage of royalties, fees, and other financial returns on an invention paid to the inventor and governing the internal distribution of the University's share of such financial returns.

8. It is understood that many research contracts, grants, and consulting agreements from or with the United States Government or its agencies, corporations, or individuals contain ownership of intellectual property clauses that may be at variance with this policy but which, if agreed to, require compliance. Such documents which are at variance with this policy may be referred to the appropriate designated officer of the campus for recommendations prior to approval.

In making this determination, the benefits that might accrue to the University and the inventor(s) shall be considered. the appropriate designated officer of the campus for recommendations prior to approval.

C. **Ownership**

Ownership of the various rights associated with copyright is dependent upon several factors, listed below. As a general rule, creator(s) retain all rights to copyrightable works, unless subject to the conditions discussed in this section.

1. **Individual Efforts:** The copyright in a copyrightable work produced by faculty, staff or students on their own initiative shall be the exclusive property of such individual(s) unless the work was specifically commissioned or assigned (refer to Section 1), or unless the work was prepared under the terms of a contract or grant, or unless preparation involved substantial use of University resources. Except in the cases covered in paragraphs 2 through 5 below, the ownership of books, scholarly articles/monographs, trade publications, maps, charts, articles in popular magazines and newspapers, novels, nonfiction works, supporting materials, artistic works, syllabi, lecture notes, and like works will reside with the creator(s) and any revenue derived from their work will belong to the creator(s).
2. **University Assigned Efforts:** The copyright in a copyrightable work prepared by faculty, staff or students in the course of their regular employment duties or by special direction or commission shall be the property of the University. Such condition of employment or such directions shall be in writing and shall be agreed to in advance by both the University and the individual. A faculty member's general obligation to produce scholarly and creative works does not constitute a University assignment in the context of this paragraph. Works created by students in the normal course of their coursework, such as a term paper, thesis/dissertation or similar scholarly work, does not constitute a University assignment in the context of this paragraph. A copyright agreement providing for the sharing of royalties, as discussed later in this policy may, at the discretion of the University, be entered into by the University and the individual in regard to the work.
3. **Sponsor Supported Efforts:** Copyright ownership in copyrightable materials developed during work supported partially or in full by an outside sponsor, through a contract or grant with the University, is determined by the applicable provisions of such contract or grant. In the absence of any governing provision, the ownership of any copyright shall be determined in accordance with paragraphs 1, 2, 4 or 5 herein.
4. **University-assisted Individual Efforts:** A copyrightable work that is developed with substantial use of University resources and is not sponsor-supported shall be the property of the University. Substantial use of institutional resources may include the commitment of staff, faculty or material support in the creation of the copyrightable work, but does not include the ordinary use of the University's libraries, faculty time, faculty offices, departmental office equipment, routine secretarial support or University owned personal computers.
5. **Distance Learning:** With respect to distance learning materials, ownership of such materials shall be determined in accordance with the provisions of paragraphs 1 through 4 above.

6. **Shop Rights:** "Shop Rights" means a non-exclusive, non-transferable, royalty-free license to reproduce, distribute, publicly perform, publicly display, or make derivative works of the copyrighted work, for educational or research purposes only. Except for textbooks and articles published in scholarly journals, the University shall have shop rights to copyrighted materials developed by its faculty, staff and students, pursuant to paragraph 1 above, and faculty, staff and students of the University shall have shop rights to copyrighted materials owned by the University, pursuant to paragraphs 2 and 5 above; provided, however, that no faculty, staff or student shall use any shop rights hereunder in competition with the University while such individual is employed by the University.

D. Disclosure

There is no mandatory disclosure requirement for works created by faculty, staff or students for works that meet the criteria set for in paragraph 1 above. For works that meet the criteria set forth in paragraphs 2, 3 or 4, the creator must disclose the existence of the work during or immediately after its creation. Disclosure shall be made in writing to the President of the University or his/her designee. If any questions exist regarding whether disclosure is required, contact the President of the University or his/her designee.

E. Commercialization/Distribution of Net Revenues

All costs and revenues from the commercialization of any intellectual property hereunder, owned by the University, shall be distributed in accordance with the University's Patent Policy. Nothing contained in this policy shall be construed to supersede the University's Patent Policy, and the terms of the University's Patent Policy shall control in the case of any conflict between that Patent Policy and the Copyright Policy.

TRADEMARK POLICY

A. Purpose

In order to comply with and assure protection under federal trademark law, Title 15, U.S.C., section(s) 1051 et seq., the University is required to monitor all uses of its trademarks. The purpose of this policy is to provide information and guidelines to the university community regarding the use of the University's trademarks. The overall purpose of the licensing program is to protect the University's trademarks and to promote the University.

B. Who Should Use This Policy

This policy applies to faculty, staff, students, academic departments, ad hoc groups, administrative divisions/departments, alumni and alumni organizations, informal groups and student organizations.

C. Definitions

1. **Trademarks:** A trademark (including a service mark) includes any word, name, symbol or device, or a combination of them, used to associate goods (or services) with a particular entity and to distinguish them from the goods (or services) of others. A trademark may only be used by or with the consent of the owner thereof. The University's trademarks include, but are not limited to: the words "Oakwood University," "Oakwood University Education Excellence

Eternity," the Oakwood University watermark; the official seals of the University; and all current and future trademarks, service marks, watermarks, designs or logos used by the University. The University asserts ownership over its name and any other mark, logo, insignia, seal, crest, design, symbol or any combination of these that have come to be associated with the University

2. **Licensing/Licensee:** Licensing is the process of obtaining legal permission through a contract for the right to use someone's trademarks. An individual or company who enters into such an agreement is referred to as a licensee.

D. **Guidelines for Using Trademarks**

The University's trademarks are intended to present a positive image of the university. The University's trademarks are not to be used in the name of a business, logo, in advertising services or on a product in a way that could state or imply an endorsement. The University's trademarks are not to be used in any way that will discriminate against any persons or groups based on age, ancestry, belief, color, creed, disability, national origin, race, religion, sex, sexual orientation or veteran status, or in any other way that would be a violation of the university's anti-discrimination policies.

1. **Approval**

The use of any University trademark by student organizations or groups or any third party (unless approved by the University) must be approved in writing by the Office of Integrated Marketing and Public Relations or his or her designee prior to production of each item. The use of the University's trademarks on consumer goods produced, ordered or sold by units of the University must be approved in writing by the President or his or her designee prior to production of each item. Items include, but are not limited to, brochures, binders, T-shirts, coffee mugs, tickets, balloons, uniforms, booths and exhibits. Written approval is required for each specific use.

Approval to use the design for one application, e.g., T-shirts, does not grant someone permission to change the design even slightly for reuse or to apply it to another item, such as a coffee mug, without seeking additional written approval. Using a trademark on items such as letters or memos does not require permission from the University. The University reserves the right to approve or disapprove any use of the trademarks, even if not explicitly prohibited by this policy or these guidelines.

OAKWOOD UNIVERSITY SONG

ALMA MATER

Our dear Oakwood within whose vale
Thy standards will not fail,
Our hearts are filled with wondrous cheer
When thoughts of thee draw near
We love thy pines, thy elms, thy oaks,
And campus always green;
Thy many flowers and distant mounts,
Form one impressive scene.

CHORUS

To thee, our dear Oakwood,
To thee we shall ever sing;
For decades thou hast stood
Thy name should ever ring.

Here we've spent our happy days,
So we love to sing thy praise;
And wherever we may be,
We'll always be true to you,
Our worthy dear old O.U.
